Re: West Valley Pops:

To Whom It May Concern:

Sun City West Recreation has had the privilege of hosting the West Valley Pops for the past five years at our Palm Ridge Facility in Sun City West.

A beautiful setting of professionals sharing their talents and art, this premier event has become a Community Event that has grown in numbers in attendance, not just for Sun City West residents and families but inclusive of all the surrounding areas.

This team of professionals that I have personally worked with display wonderful communication and cooperation and willing to help us make this an experience that many attendees have had or will ever have the opportunity to experience for the small price of a donation of food that helps the Valley View Community Food Bank in their efforts to help the less fortunate people in this area.

This event has been entirely funded by Sun City West residents and surrounding communities whose freewill donations have helped, but have not, offset all the expenses.

We will continue to do our best to support this project and it is our hope that other communities, sponsors and grant allocations will continue to support this project.

Sincerely,

Maggie Harvey  
Events Planner  
Sun City West Recreation
